

20Ah(For Example):

BMS - Battery Management System:

Name	Protection condition	Time-delay of detection	Recovery
Overcharge protection	3.75±0.03V	1000ms	3.6±0.05V
Equalizing voltage	≥3.6V	Equalizing current: 20-30mA	<3.6V
Overdischarge voltage protection	2.1±0.08V	100ms	2.3±0.1V
Overdischarge current protection	2* (Max Discharge Current)	200ms	Disconnect load
Short circuit protection	Load short circuit	200us	Disconnect load
Temperature control protection	75±5 C	/	53 C

About US

ECO-WORTHY solar is manufacturer and wholesaler of solar panels and renewable energy products(charge controller,Off-grid/Grid tie inverter,wind turbine...)since 2002. It was founded by several eco-friendly impassioned engineers and have achieved great progress so far.

We offer our consumers the quality products at a favorable price. We bring the industrial fruit to the suburbs, the rural areas, the areas which lack electricity so that the inhabitants benefit from solar energy.
