I hereby agree to the Terms and Policies posted on Performance-PCs.com website found here:  
[http://www.performance-pcs.com/catalog/index.php?main\\_page=shippinginfo](http://www.performance-pcs.com/catalog/index.php?main_page=shippinginfo)

These policies include but, but are not limited to the following:

If you are not satisfied with your component purchase, you must contact us within 3 business days of delivery to be eligible for a refund or exchange. THERE WILL BE ABSOLUTELY NO REFUND OR EXCHANGE OF ANY CUSTOM SLEEVED POWER SUPPLY OR MODIFIED CASES! We also cannot accept back any water cooled parts or kits, nor CPU heatsinks, that are used or have been installed. If you have a defect or problem with an installed water cooled part then the support and RMA must be direct through the manufacturer. Any products that are cut to order ie. sleeving, tubing, etc. cannot be returned for any reason. We do not accept returns for unneeded hardware so please be sure of the amount BEFORE ordering. All returned items must be shipped prepaid in their original cartons. Any items returned must be in resellable condition without any scratches, fingerprints, or other damage. We reserve the right not to accept a refund request on custom orders, if we feel that we would not be able to resell them. Performance PC's, Inc. will assess a 20% restocking fee against the customer's account on all returns for refund. This includes refunds for defective items. We will replace a defective item but, if you choose a refund it will be subject to restock fees to cover all the credit card fees associated with processing the order. Performance PC's, Inc. will not refund to the customer the original shipping charges on any returns. The customer must contact Performance Pc's within 72 hours (not including weekends) from the delivery date of any shortages or mistakes in an order. Any notifications of shortages/wrong items after 72 business hours will NOT be honored!
