PLAN 501 Three sunny bedrooms, each with its own view of your private garden . . . two complete baths . . . loads of closet space—all this in a secluded unit, away from the living-dining area. The kitchen's right in the heart of the home—designed, as it should be, with Mother in mind. Open planning allows her to be part of the family group when preparing meals . . . lets her be a part of the party when you entertain.

In recent months Eichler Homes have won top NATIONAL awards from LIFE Magazine, PARENTS' Magazine and POPULAR MECHANICS.
