

Configuration Completed

vtigercrm-5.4.0 is all set to go!

Getting Started:

You can start using your CRM now.

- Your login page: <http://10.1.1.240/vtigercrm>.
- Please log in using the "admin" user name and the password you entered in step 3/4.
- To add more users, please visit the Settings page..

Recommended Steps:

It is important that you complete the following steps

- Do not forget to set the outgoing email server (setup accessible from Settings->Outgoing Server)
- Setup 'Backup Server' so that your CRM data and files are archived to another location on a daily basis
- Rename htaccess.txt file to .htaccess to control public file access. [More Information](#)

Documentation And Tutorial

- Documentation including User Manual can be found at <http://wiki.vtiger.com>
