## MegaRAID® SAS 8308ELP Kit 50% Off MSRP Promotion

February 19 – March 30, 2007

### Key Advantages

- Flexibility: Support for both SATA II and SAS drives
- Scalability: Direct connect 8 devices or up to 16 using SAS expanders
- Low-profile form factor for space-limited environments
- Complete RAID data protection and remote battery support
- True Universal Management Suite for all MegaRAID serial solutions
- 8-port SAS/SATA solution equal to competitor's 4-port SATA-only pricing during promotional period

### Why Should You Choose MegaRAID SAS/SATA Solutions?

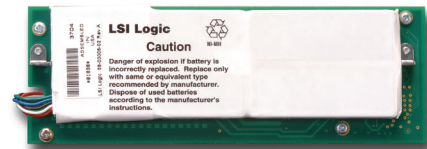

- Reduce Training and Support Costs
  - Using MegaRAID SAS/SATA allows you to train IT once for any tiered storage scenario – reducing your costs and improving the quality of support.
- Safeguard your Future in Storage
  - Using MegaRAID SAS/SATA products today protects your investment in future SATA and SAS drive purchases by ensuring interoperability.
  - Universal Management Utility, MegaRAID Storage Manager™ provides one look and feel for all serial applications, regardless of technology.
- SAS/SATA RAID at SATA RAID pricing
  - Purchase MegaRAID SAS/SATA at SATA pricing for your tiered storage requirements – as opposed to a SATA-only adapter that only supports SATA applications.
- Freedom of Choice
  - LSI has the largest selection of SAS/SATA solutions in the industry – from entry-level RAID 5 to enterprise-level adapters with support for all key RAID levels and battery backup units.

### MegaRAID SAS 8308ELP Kit

Ordering Part Number: LSI00051-F  
Promotional MSRP: \$305 (Regularly \$610)

### Key Product Specs

- Eight-port 3Gb/s SAS/SATA RAID Adapter
- PCI Express host interface
- Low-profile, extended length form factor
- 128MB DDR SDRAM memory
- Supports up to 16 SATA II or SAS drives

Optional Battery Backup

### APPLICATIONS

- Server applications
- Video streaming
- Web content
- Video-on-demand
- Security and surveillance
- Disk-to-disk backup
- Fixed-content storage

### ENVIRONMENTS

- Capacity-intensive environments
- Internal direct-connect to SATA and/or SAS drives
- Nearline storage
- 1U/2U rackmount servers

### FEATURES

- 3Gb/s per port
- Eight SATA/SAS ports
- Two internal x4 SFF8087 connectors
- x4 PCI Express host interface
- Support for up to 16 SATA II or SAS drives
- Low-profile form factor (7.71" X 2.536")
- Intel® IOP333 I/O processor
- RAID Levels 0, 1, 5, 10, 50
- Optional remote battery backup
- Comprehensive management and configuration utilities
- Supports all major operating systems
