lopoco
low power systems

lopoco servers:

less power.

same filling

lopoco servers use 25% of the power of conventional servers

No cell phone processors, no weird form factors, just
64-bit X86 servers that get the job done while using
25% of the power

Reduce data center
operating costs 80%
with **lopoco** servers

lopoco
low power systems

**40 servers in a single
4 Kw cabinet!**

with power to spare!

lopoco
low power systems

Increase
uptime
and
availability
with **lopoco** servers

**Thin server
provisioning without
thin provisioning!**

lopoco servers are
more reliable,
because they
run cool & quiet
